About Yuva Kalyan Parishad (YKP)

Unfortunately our state Bihar lacks in self sufficiency. Engulfed with problems like unemployment, unawareness, poverty and poor education which restricts its grouping in developing state category. Even though our state is heading towards development, the problem slows down the process of development.

Within the boundaries of the state every section of society, community, cast, and religion live. The main reason behind making our country immovable and under developed is lack of awareness and gainful employment.

As such Yuva Kalyan Parishad was formed in the year 2012 in state capital of Bihar (Patna) for eradicating the darkness within the society which is due of unawareness, poverty, unemployment and to make youth educated and Self dependent.

Strength of an organization depends upon its strategy to execute the programme & policies. Our team strength contains 150 Associate Partners and 30 Block Co-Ordinators in 35 Districts of Bihar. Jan Siksha Abhiyan

Jan Siksha Abhiyan is an initiative to educate all and especially those deprived class who reel under poverty and starvation. Education is the key to overall human development and improving the educational scenario is essential for its population. Social access has two key components. One is equity, which means that all person should have equal access to, in and through elementary education to realize their potential and aspirations, and the other one is

ensuring equity, means not only creating equal opportunities, but also enabling conditions in which socially excluded person like students from SC/ST communities, tribals, depressed classes etc. can avail the opportunity to receive education. It may be possible only if we opt the concept of model counseling centre in each district of the state.

The question is what percentage of population avail these facilities provided to them. Owing to this fact many talented students are deprived of the visionary plan of government due to lack of information regarding counseling & non availability of counseling centre at district level those students belonging to Tribal community became puppet at the hands of Maoist /Naxalite resulting in ruining of their future. The tribe a youth do not have any knowledge about valuable and reputed schemes of government, eventually, they are forced to suffer with unemployment and ignorance.

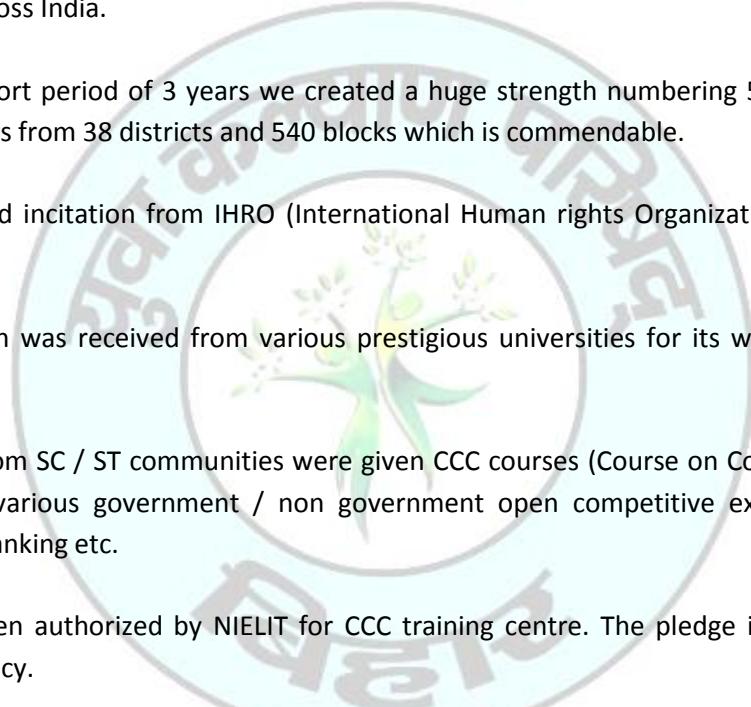

YKP intends to provide free technical education to most depressed and downtrodden. Giving them proper information on the benefits of education, its impact and effects. Thus maximization of free of cost technical and basic education to the youth. The schemes which can change their lives like **Kaushal Vikas Yojana , Skill Development Training Programme , Scholarship schemes etc.** will be explained in detail and methods to avail their benefits.

Skill Development Training Program

Skills and knowledge are the driving forces of economic growth and social development in a country. As opposed to developed countries, where the percentage of skilled workforce is between 60% and 90% of the total workforce, India records a low 5% of workforce (20-24 years) with formal vocational skills.

To rapidly scale up skill development efforts in India, by creating an end-to-end, outcome-focused implementation framework, this aligns demands of the employers for a well-trained skilled workforce with aspirations of Indian citizens for sustainable livelihoods.

Under this Yuva kalyan Parishad gives training to different sections of people in society. The students are given training under **National Digital Literacy Mission (NDLM)**, **Pradhan Mantri Kaushal Vikas yojna (PMKY)**, **SHG for women**, **National urban Livelihood Mission (NULM)**.

Self Help Group

Through **Self Help Group**, **Yuva Kalyan Parishad** is providing employment and self employment opportunity to women not only in Bihar but also in Jharkhand, which is improving the economic condition of women. Women are being motivated to mobilize, Empower, become self-reliant and secure livelihood. In Bihar and Jharkhand, the **SELF HELP GROUP** is being formed and funding is done by CSR fund.

As our constitution does not make any discrimination between men and women. They both are equally entitled for education, property rights and right to social equality, but in reality, though society being developed enough women are still deprived of their rights. This a major reason behind women's illiteracy. The situation is even worse in rural areas. Due to illiteracy women are unaware of their basic rights and their economic condition is detrimental.

Therefore, to address this issue and for economic empowerment of women, **Yuva Kalyan Parishad** has linked them to SHGs and skill training programs. In which women are trained in accordance with their interests. Training programs include stitching, making pickles, papad, various eatables like Adauri. After training the Ministry of Labour, Government of India awards them with training certificates. After such trainings women become capable for being employed or can undertake self-employment thus contributing to economic progress of their families.

Achievements of Yuva Kalyan Parishad under Self Help Group

- ✓ Women in villages were organized into small groups according to their interest and skills.
- ✓ Formation of new SHGs and boosting of existing SHGs were done.
- ✓ Helping them to procure materials at lower and subsidized rates for their work.
- ✓ Creating market base for their products and promotion for such products.
- ✓ Providing them training related to Marketing like pricing, quality and storage which assisted them in advancement. They were also provided information on proper utilization of their resources.

Free Employment Exchange

Programme

Unemployment in India is a complex problem with numerous overlapping and intertwined causes; however, it is possible to identify several key causes. Understanding the causes of unemployment is the first step in beginning to rectify this major problem and creating a society in which everyone is able to find a sustainable livelihood for themselves and their families.

For addressing the problem of unemployment government opened EMPLOYMENT EXCHANGE CENTRES in every districts, villages and blocks. The objective was to create a database of the unemployed section within the society and to create job opportunities on basis of knowledge, qualification and skills. But the desired result cannot be achieved due to unawareness regarding such centers, incapacity in job creation, registration and renewal procedures etc. Many employment exchange centers became non-functional due to this.

YUVA KALYAN PARISHAD provided assistance to these centers through data collection, creating awareness among unemployed about their benefits, time to time updation on jobs and employment. Thus bridging the gap between government and unemployed. The organization also assisted unemployed in getting employed in various sectors.

Expansion of E-Governance through

RTI

Today in our country, various government schemes are being run at Panchayat level, state level and for needy people. Every year thousands of crores are being spent. But because of widespread corruption these schemes cannot be properly implemented and their benefits could not be reached to the needy. The biggest reason behind this is the lack of information, fear and hesitation. Moreover, reprimand of officials in offices. Thus, the gap was created between government and the people. **Yuva Kalyan Parishad** made people aware in villages about the usage of RTI as a tool to fight corruption and ignorance.

We also encouraged people to use **E-GOVERNANCE** to procure information about schemes, facilities, development works related to people and their areas information on funds and their utilization etc. A proper training session and workshops were organized providing them basic methods to procure information.

Achievements of Yuva Kalyan Parishad under E-Governance through

RTI

- ✓ The officials in villages became more accountable towards their duties.
- ✓ Awareness created vigilance thus corruption declined.
- ✓ E-Government brought public services to citizens on their schedule and their venue.
- ✓ Technological advancement was witnessed in villages.

Social Change for Social Impact

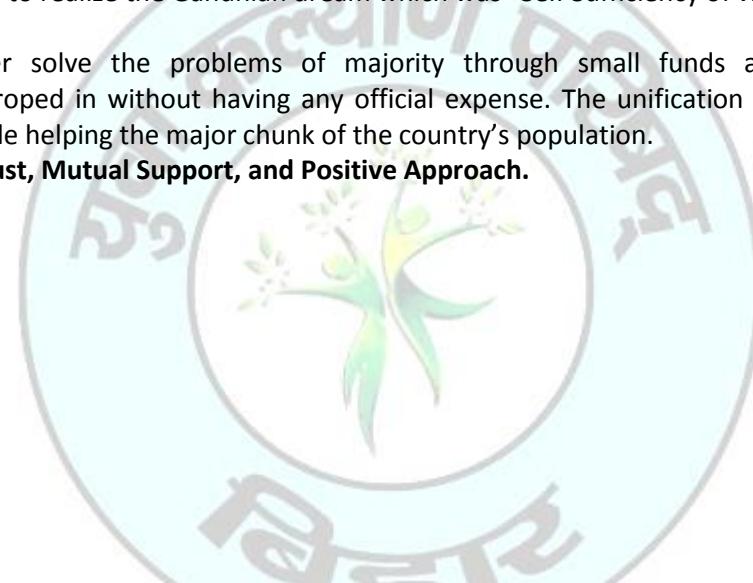

Every class in society consists of caste and religion, including the people living in the community is equally entitled to live their lives with rights enshrined in our Constitution. And their livelihood to a large extent is the duty derived from the traits of the constitutional provisions.

There are lots of problems in our society .90% of these problems can be easily addressed if we cooperate and unanimously try to resolve them, keeping our selfish motive away. The capability we have is being unutilized due to self – centered approach. The desires, wants and development are limited to our small circle comprising of family members and relatives.

Normally in any village locality drinking water, early education, law on illegal traffic trafficking, community building etc. are major concerns. But no attention is being paid. The villages are in miserable condition. We need to realize the Gandhian dream which was “Self Sufficiency of villages”.

We can altogether solve the problems of majority through small funds at our disposal. The representative be roped in without having any official expense. The unification can be done through participatory module helping the major chunk of the country’s population.

Just the need is **Trust, Mutual Support, and Positive Approach.**
